He Wins, She Wins - Learning the Art of Marital Negotiation

When you get married, you expect your relationship to be a partnership in which you make decisions and face the world together, united. But often a husband's perspective and a wife's perspective on the same issue can be very different and unity in decision making can be tough. Should spouses take turns getting their way? Should they compromise? Can they avoid making decisions altogether? Dr. Harley says there's a better way--a way in which both partners get what they want and believe is best every time. In He Wins, She Wins, Dr. Harley introduces the revolutionary concept of joint agreement in marriage that keeps both husband and wife on equal footing and equally satisfied. This win-win model for negotiation starts with a simple rule: Never do anything without enthusiastic agreement between you and your spouse. Dr. Harley walks couples through the five most common sources of conflict in marriage, (friends and family, career and time management, finances, children, and sex), applying the joint agreement rule in every situation. And he teaches readers how to resolve conflicts the right way, so that not only are those conflicts resolved once and for all but the couple's love for one another actually grows and is sustained for the rest of their lives. Anyone who has been married long enough to have a disagreement will benefit from this unique new book from everyone's favorite marriage doctor.

There's an old joke that after years of marriage a man complains, "She changed!" and a woman complains "He didn't!" Just as change is a part of life, it's also a part of marriage—a healthy and normal part of it. But just because things have changed doesn't mean you shouldn't recognize yourself or your relationship with your husband. Too many women wake up in their marriages and ask themselves, "Is this it?" After years of sharing domestic duties, raising kids, and balancing careers, many of us can't help but wonder if we're living the lives we intended to have. Whether you have been married for two decades or two months, dating and relationship expert Andrea Syrtash shows how to create a more exciting and more fulfilling relationship with your spouse—and more important, with yourself. After all, you can't expect to find passion in your relationship if you are not passionate about your own life! With simple steps and fun exercises, Cheat On Your Husband (with Your Husband) provides the tools to help you combat boredom in your marriage and renew an easy, intimate connection with your spouse. Using real-life examples of couples who have benefited from her techniques, Syrtash debunks common marriage myths and shows how fun and fulfilling marriage can be.
