In I Know You Got Soul, Jeremy Clarkson writes about the machines that he believes have 'soul'. It will come as no surprise to anyone that Jeremy Clarkson loves machines. But it's not just any old bucket of blots, cogs and bearings that rings his bell. In fact, he's scoured the length and breadth of the land, plunged into the oceans and taken to the skies in search of machines with that elusive certain something. And along the way he's discovered: * The safest place to be in the event of nuclear war * Who would win if Superman, James Bond and The Terminator had a fight * The stupidest person he's ever met * What an old Cornish institution called Arthur has to do with 0898 chat lines * And how Jean Claude Van Damme might get eaten by a lion . . . In I Know You Got Soul, Jeremy Clarkson tells stories of the geniuses, innovators and crackpots who put the ghost in the machine. From Brunel's SS Great Britain to the awesome Blackbird spy-plane and from the woeful - but inspiring - Graf Zeppelin to Han Solo's Millennium Falcon, they can't help but love them in return. I Know You Got Soul - Machines with that Certain Something

A Ferrari F40 has it, a Lexus hasn't. Concorde's got it, but not an Airbus. And while Titanic had it in spades, the Queen Mary 2 must have been in the wrong queue. Soul. Some machines matter to us while others are, well, just machines. In his own inimitable way, Jeremy Clarkson tells the gripping stories of the planes, trains and automobiles that inspire us; and of the geniuses and visionaries that built them. Lavishly illustrated, I Know You Got Soul is the perfect Christmas present for boys of all ages.

The Battle of Britain on Screen - ‘The Few’ in British Film and Television Drama

This new, updated edition of The Battle of Britain on Screen examines in depth the origins, development and reception of the major dramatic screen representations of 'The Few' in the Battle of Britain produced over the past 75 years. Paul MacKenzie explores both continuity and change in the presentation of a wartime event that acquired and retains near-mythical dimensions in popular consciousness and has been represented many times in feature films and television dramas. Alongside relevant technical developments, the book also examines the social, cultural, and political changes occurring in the second half of the 20th century and first decade of current century that helped shape how the battle came to be framed dramatically. This edition contains a new chapter looking at the portrayal of the Battle of Britain at the time of its 70th anniversary. Through its perceptive demonstration of how our memory of the battle has
been constantly reshaped through film and television, The Battle of Britain on Screen provides students of the Second World War, 20th-century Britain and film history with a thorough and complex understanding of an iconic historical event.

And in 2015, he shows no sign of slowing down. **Born to be Riled**

Born to be Riled is a collection of hilarious vintage journalism from Jeremy Clarkson. Jeremy Clarkson, it has to said, sometimes finds the world a maddening place. And nowhere more so than from behind the wheel of a car, where you can see any number of people acting like lunatics while in control (or not) of a ton of metal. In this collection of classic columns, first published in 1999, Jeremy takes a look at the world through his windscreen, shakes his head at what he sees - and then puts the boot in. Among other things, he explains: • Why Surrey is worse than Wales • How crossing your legs in America can lead to arrest • The reason cable TV salesmen must be punched • That divorce can be blamed on the birth of Jesus Raving politicians, pointless celebrities, ridiculous 'personalities' and the Germans all get it in the neck, together with the stupid, the daft and the ludicrous, in a tour de force of comic writing guaranteed to have Jeremy's postman wheezing under sackfuls of letters from the easily offended. **Don't Stop Me Now**

Jeremy Clarkson knows there's more to life than cars. There is, after all, a whole world out there
just waiting to be discovered. So, before he gets on with the job in hand, he'd like to take some
time out to consider the bigger picture. Don't worry, he'll get on to the car bit eventually, but
before we do, there's time to learn about: Why Galapagos tortoises are all mental France,
reduced to the size of a small coconut Why Jeremy Paxman and the bass guitarist of AC/DC
aren't so very different The problems of being English and God's most stupid creation And then
there's the cars: Whether it's the poxiest little runabout or an exotic, firebreathing supercar,
anything on four wheels is approached without fear or favour. What emerges from the ashes is
not always pretty. But it is, invariably, very, very funny.
